

“Change: Collaborating Today for a Safer Tomorrow”

SATURDAY, JUNE 17, 2017

8:00 am – 12:00 am	<p>ENVIRONMENTAL ASSESSMENT AT RETAIL LOCATION: This half day workshop will focus on the role of an environmental assessment within the context of a foodborne disease outbreak investigation and food safety system. The skills needed to participate in an outbreak investigation are different from those needed to inspect food service operations and the role of environmental health staff is critical. You will learn when and how to use the National Environmental Assessment Reporting System (NEARS) environmental assessment tool and its components during the workshop. It is recommended that before you take this half day workshop, you register and take CDC’s (free) e-Learning on Environmental Assessments of Foodborne Illness Outbreaks. It is available at https://www.cdc.gov/nceh/ehs/elearn/ea_fio/index.htm. Moderator: <i>Vince Radke, Sanitarian, Centers for Disease Control and Prevention</i></p>
8:00 am – 12:00 am	<p>EFFECTIVE COMMUNICATION SKILLS LOCATION: In a recent study of 1000 employers, 81% of those surveyed believed that their perception of a person’s management ability is directly affected by the quality of the person’s participation in meetings. To increase your effectiveness in meetings and in other challenging situations in the workplace, join Nancy Singer of Compliance-Alliance, Dr. Daniela Drago from GW University, and prominent retired AFDO alumnae and current members* in an interactive session where you will learn skills and practice techniques to make you more effective in in the workplace, and improve your chances for promotion. Moderator: <i>Nancy Singer, President, Compliance Alliance</i> <i>Candace Jacobs, Assistant Director, Washington State Department of Agriculture</i> <i>Mark Reed, Project Manager, AFDO</i> <i>Steve Steingart, Retired, Allegheny County Health Department</i> <i>Bill Teeter, Retired, Canadian Food Inspection Agency</i></p>

3:30 pm – 5:30 pm	U.S. Strategies for Improving the Safety of Imported Food Location: The safety of imported food is a global concern due to the great variety and cultural diversity of the foods and ingredients that are imported into the country. Programs that regulate food safety in countries around the world vary in their scope and effectiveness. They may lack adequate funding, expertise, or laboratory resources. Although food safety issues exist in this country as well, there are new legal approaches and innovative efforts designed to assure food imported into this country have met the same strenuous oversight and control mandated for domestic manufacturers as well. Panelists will offer perspectives on a variety of regulatory approaches to food safety at the federal and state levels in the United States, as well as in selected countries and within the food industry itself. Insights into the nature and use of 3rd party audits and verification will also be addressed. <i>Stephen Stich; Division Director; NYS Department of Agriculture & Markets; Division of Food Safety & Inspection</i> <i>Todd Cato; Director; FDA Southwest Import District, Office of Regulatory Affairs</i> <i>Karil Kochenderfer; Principal, Linkages</i>

11:15 am – 12:00 pm	Emerging Issues with Shellfish Location:
<p>According to the most recent available estimates made by the Food and Drug Administration (FDA), molluscan shellfish--oysters, clams, mussels, and scallops--cause more than 100,000 illnesses annually. To address this public health concern, the Interstate Shellfish Sanitation Conference (ISSC) was formed in 1982 to foster and promote shellfish sanitation through the cooperation of state and federal control agencies, the shellfish industry, and academia. This organization is at the forefront of dealing with food safety issues dealing with shellfish as they provide the guidance and counsel on such matters to State regulatory authorities and the shellfish industry as well. This agenda topic is designed to provide an update on the oversight strategies in place to assure the safe harvesting and marketing of shellfish and address any emerging issues that exist.</p> <p><i>Ken B. Moore, Executive Director; Interstate Shellfish Sanitation Conference (ISSC)</i></p>
